Dear Dr. Garroutte,

I hope this little note finds you in the best of conditions, enjoying every blessing of our gracious Lord.

Our family is enjoying and appreciating our precious \_\_\_\_\_ anew every day, thanks to God's grace and your very special talents and skills.

We're reading your book little by little and coming to a new understanding of this gift of life.

Thank you for giving of yourself - so much of yourself, so that others may live and enjoy a better life, and thank you so very much for saving our \_\_\_\_\_

He's taking his medicine and we are both living healthier now. Perhaps not perfectly so, but trying to.

You and your beautiful family are in our thoughts and in our daily prayers. You keep up your courage and we will too!

Sincerely,
